85. What Is Ellis Island?  
A small island in New York harbor. It is about a mile southwest of the Battery, where the old immigrant station, Castle Garden, was located. The U. S. purchased it from the State of New York in 1890 and used it for many years as a powder magazine. Since 1892 it has been used as a place of debarkation of immigrants. It is determined whether they have complied with the immigration laws; if so, they are allowed to land; if not, are deported.
86. The Largest Ship Ever Built?  
American ship "Leviathan," formerly the German "Lauterbach," seized by the U. S. at outbreak of the World War and used as a transport, and carried thousands of American troops abroad. Displaced originally 4,700 tons, 3,400 passengers. Alteration permitted carrying of as many as 12,000 soldiers. Gross tonnage, 50,926.65; length, 560 ft. 7 in.; breadth, 103.5 ft.; height smokestacks to keel, 184 ft. Immense engines drive the monster ship 25 knots an hour. Since she has been recommissioned for freight and passenger service, and will be operated by the U. S. Lines between New York and Cherbourg and Southampton. With the "Mauretania" the "Leviathan" ranks as the largest vessel afloat.
87. What Is a Passport?  
A formal document given by a state certifying to a citizen of the state certifying his citizenship, authorizing him to leave the state on which he is a citizen, and recommending protection for him abroad. Is presented to the government of a foreign state as an authentication of his identity and character. When examined and endorsed for approval by the proper officer, the bearer is permitted to proceed.
88. What Was the Santa Fe Trail  
Prior to the building of the railroad across the western plains from 1822 to 1872, there was a large overland freight trade between the Missouri River and Santa Fe, New Mexico, via the Santa Fe Trail, a distance of 775 miles from Old Franklin, Mo., westward to Westport (now Kansas City), diagonally across the state of Kansas, then a wilderness, across southeastern Colorado and south in New Mexico to Santa Fe. Portions of the trail were infested with hostile Indians. From Cecil Grove, Kan., they usually traveled in caravans (overland train) for mutual protection. The usual freighting outfit consisted of six oxen or four or five spans of mules, attached to a large wagon carrying 6,000 to 7,000 lbs. Some rains, especially if Indians were on the war path, were as long as 8 miles, traveling three times across. A vast herds of buffalo were often seen by the travelers.
89. Why Is 13 Considered Unlucky?  
This superstition is so general throughout Europe and America

## POLICE! BUT NO ARRESTS

(Los Angeles Examiner, Mar. 28)

Among many notables greeted at the Canadians' picnic at Brookside Park yesterday was Maj. G. H. Scholley, chief of the local Police. He is being welcomed by Robert Crawford, chairman of the picnic reception committee—Examiner photo.

Canadians did not let overcast skies keep them away from their annual picnic reunion, which was held yesterday in Brookside Park at Pasadena and is estimated to have drawn more than 10,000 people. An international aspect was added to the affair by the fact that speakers of both Canada and the United States were heard, many California officials as well as former and present Canadian government functionaries participating in the program.

Many Canadian war veterans in addition to a picnic were held and took part in the sports.

The notable Canadians on the program included Maj. Gen. H. P. Lindsay, D.S.O., V.C., J. H. Brown, former premier of British Columbia; R. G. Brett, former lieutenant governor of Alberta; J. H. Bell, former premier of Prince Edward Island.

## "THE GORILLA"

The old saying is true, that a person may be thrilled once in a while, but the greatest thrill they can ever get, will be when "The Gorilla" comes to the Rex theater on Tuesday, April 19.

While under a bombardment of laughter, this mysterious play will hold the audience in its grasp until the mystery is finally solved. Never before has a mystery play held its grip on its audience as "The Gorilla." Camron Matthews, who is so well known to Canadian theater-goers, is bringing with him a very strong cast of artists who have been playing with the original production in New York, where thousands have been thrilled and amazed by the sensational mystery, "The Gorilla."

"I was afraid to eat because I always had stomach trouble afterwards. Since taking Alkermid I can eat and feel fine." (signed) Mrs. A. Howard. ONE spoonful Alkermid removes GAS and often brings surprising relief to the stomach. Stops that flat, bloated feeling. Removes old was nature. ## CALGARY KIDDIES

Don't be satisfied on Tuesday morning with hearing your friends tell how good the Calgary Kiddies were. Come and see for yourself. You will feel well repaid for taking the evening off, as these kiddies will actually make you forget any trouble or worries you might have. They have won most gratifying praise and publicity for their stage technique, poise and versatility. "The Winner Works" by two wet tots is alone worth the price of admission.

## "THE GORILLA" LOUD, LONG LAUGH

Laughter is the dominant element in "The Gorilla," the burlesque of mystery plays, which Cameron Matthews will present at the Rex theater on Tuesday night, April 19.

"The Gorilla" is by Ralph Spence and had its first showing in Broadway last spring, and also at the Oxford theater, London, England, scoring an immediate success, and since then has proven to be the greatest mystery play ever produced.

Capacity audiences have been thrilled by "The Gorilla," and tonight highly recommended, will no doubt prove the deciding hit of the season.

Easter tea will be held in the Parish Hall on April 16, by the ladies of St. John's Guild.

**How far will your car go  
before the miles begin to tell?**

ALMOST any car will give you satisfactory results for the

A first 10,000 miles or so.

But if you want the same fine service on through the second,

third and many following tens of thousands of miles, buy a

McLaughlin-Buick!

Accurate tests at the Great Proving Ground of General

Motors, where all cars are driven and examined, show

McLaughlin-Buick's sturdy construction and powerful Valve-

Head Engine still gaining in efficiency at the point in

miles where other cars are distinctly on the down grade.

It is the care in McLaughlin-Buick design—the tests at the

Proving Ground to be sure a suggested change is right—the

search for better and more durable performance constantly

carried on—which are responsible.

Enormous volume and its savings make possible this extensive

research and McLaughlin-Buick's superior construction.

McLaughlin-Buick cars are built for big mileage on their

specimens—for greater satisfaction to their owners. Buy

one for years of exceptional service.
